Web Development Experience

Web Development Freelancer
Arlington, MA

HotSpotDesign
Feb 2010 – present

- Partnering with two different web designers to provide web development services for their clients
- Employed on a contract basis by AndPlus Design to redevelop a WordPress-based web site (lovelogos.net) according to the client's designs

Web Development Tutor Boston University Center for Digital Imaging Arts (CDIA)
Waltham, MA

Nov 2009 – present

- Tutored Web Development students on a part-time basis in PHP, CSS, and XHTML
- Developed and conducted customized, one-on-one tutoring sessions to address each student's specific needs and learning styles
- Selected for the role based on my demonstrated knowledge, strong training skills, and patient, consultative nature

Web Developer/Team Leader
Boston University CDIA
Waltham, MA

Career Collaborative, Inc.
www.careercollaborative.org
Nov 2009 – Jan 2009

- Led three person team in proposing, designing, developing, and implementing a new WordPress-based web site for the non-profit organization Career Collaborative, Inc.
- Met project goals by closely tracking timeline, monitoring web team and client deliverables, and timely problem-solving
- Acted as client liaison throughout all project phases
- Coded custom forms, form handler, blog, and Google map and directions
- Developed code to allow client to customize page content: banner images, quotes, quote authors and sidebar "Success Story" images, quotes, links, authors
- Drove resolution of host server issues, including server technology, software compatibility, functionality, and downtime
- Trained client staff to manage their site using WordPress' Administration Panels, and to perform site and database backups
- Conducted presentations to client and to CDIA staff, faculty, and students
- Technologies used: WordPress, PHP, XHTML, CSS, JavaScript, jQuery, Google Maps API

Web Development Experience (cont.)

Web Site Designer
Arlington, MA

Independent Consultant (part-time)
2002-2009

- Designed and developed brochureware web sites for small businesses in HTML and CSS
- Proposed layout, navigation, content, and structural solutions
- Recommended and secured domain names, web hosts and hosting plans

Product Manager
Marlborough, MA

Attune LLC
1997-2002

- Designed, developed, and marketed audio and music technology products for small Internet startup company, including web site design and maintenance, email support, and online sales
- Performed extensive marketing research and promotional activities, including development of product placement, pricing, and distribution plans; participated in media strategy and trade shows
- Recruited, screened, hired, and trained personnel in technical and customer service skills

Education

Boston University Center for Digital Imaging Arts
Web Development: Certificate

Waltham, MA

Key Achievements:

- Led class project in developing an internal Joomla-based web site to provide the CDIA student/faculty community with a JavaScript effects database resource
- Developed web site to administer and display CDIA student and hiring company geographical distribution information on a custom Google Map using colored markers, "info windows", and a database
